

PRONUNCIATION VOWEL SOUNDS

Lecturer: Quynh Trang, MA.

Short vowel
-ʊ-

/ʊ/

Long vowel
-u:-

/u: /

Sound 1

/ʊ/

look

Look, a new moon!

pull

The sign said 'Pull'.

full

This isn't really full proof.

could

The bird could.

would

'He would, Julie,
at the full moon.'

Sound 2

/u:/

Luke

Luke, a new moon!

pool

The sign said 'Pool'.

fool

This isn't really foolproof.

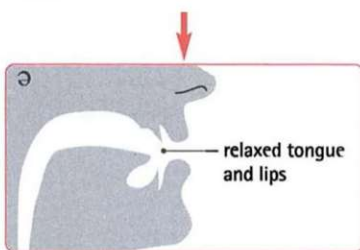

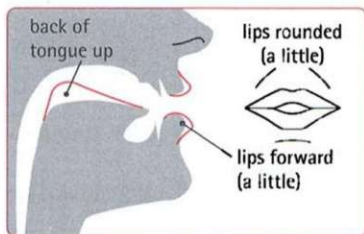

cooed

The bird cooed.

wooded

He wooed Julie
at the full moon.

Diphthong/ Long sound
-ʊə-

/ʊə/

PRONUNCIATION

Lecturer: Quynh Trang, MA.

PRONUNCIATION Linking

 2.4 In English, speakers do not usually pronounce each word separately. They join, or *link*, words together. When two words are linked, they often sound like one word. Learning to recognize linking will help you understand what you hear, and linking words correctly will help you sound more fluent. Three common types of linking are:

1. Consonant sound to vowel sound: *It's a fascinating job.*
2. Vowel sound to vowel sound: *The book will certainly be interesting.*
3. Consonant sound to same consonant sound: *What was your reason for leaving?*

PRONUNCIATION Linking

 2.5 Listen and complete the sentences with the linked words that you hear. Then listen again and check your answers.

1. Your brain controls everything you do. /z/ + /e/
2. Your brain generates enough energy to power a light bulb. /s/ + /ɪ/
3. The activity in your brain never stops. /n/ + /n/
4. I'm with you on that! /ð/ + /ju/ + /w/ + /v/
5. Any exercise that makes your heart beat faster can help your mood. /i/ + /j/ + /e/
6. Neurons carry the messages around the brain. /z/ + /ə/

UNIT 5: SPEAKING

Lecturer: Quynh Trang, MA.

GRAMMAR FOR SPEAKING

Lecturer: Quynh Trang, MA.

GRAMMAR FOR SPEAKING Infinitives after Verbs

We use infinitives (*to* + base verb) after certain verbs. Notice the two patterns.

Verbs + infinitive

agree	continue	forget	plan	remember
begin	decide	learn	pretend	try

My son is learning **to ride** a bicycle. He plans **to practice** every day.
I forgot **to bring** my notebook to class. Did you remember **to bring** yours?

Verbs + object + infinitive

cause	inspire	remind	teach	warn
encourage	instruct	require	tell	

Stress caused Dave **to have** memory problems.
Please remind me **to order** the birthday cake today.

Direct object: is affected
by the action (the verb)

I bought some flowers yesterday.

I bought my mother some flowers yesterday.

Indirect object: usually receives
the direct object

F Complete each sentence with an appropriate infinitive.

1. I promise not **to spend** too much money on my vacation.
2. Pablo tried **to help** his friend John with his homework.
3. My daughter sometimes forgets **to brush** her teeth in the morning.
4. When Mehmet wants **to learn** a new vocabulary word, he writes it down.
5. Did the Nortons decide not **to buy/ get** a new car?
6. Lee needs **to stay/ study/ work/ rest** after class today.
7. Do you plan **to take/ attend** another English class next semester?
8. I really hope **to visit/ see** London someday.
9. My parents always encouraged me **to try/ do** my best.
10. The teacher warned us not **to be/ arrive** late for class.

SPEAKING SKILL

Lecturer: Quynh Trang, MA.

SPEAKING SKILL Make Suggestions

When you make suggestions, you want them to sound polite and not too forceful. One way to do this is by using the modals *could*, *should*, and *might*.

You **could** ask some classmates to form a study group.

Maybe we **should** practice our presentation again before class.

You **might** want to take the exam again.

Here are some other words and phrases you can use to make suggestions:

Let's take a break.

Why don't you take a break?

I suggest we take a break.

It's a good idea to review your class notes.

It's helpful to review your class notes.

- ☐ How about/ What about + V-ing?
- ☐ I (would) recommend (that) S + V
- ☐ I (would) recommend/ suggest + V-ing/ smt
- ☐ Shall we + V?
- ☐ My recommendation/ suggestion is that S + V
- ☐ I think/ believe + smt/ doing smt + will/ would be good/great/ nice/ awesome

SPEAKING SKILL Making Suggestions

Mike: I have to pick my cousin up at the airport on Friday, so I can't go to class. Do you think Professor Harris will let me hand my psychology paper in on Monday instead?

Eric: I'm not sure. Maybe you could₁ hand it in on Thursday.

Mike: I don't think I can finish it by then.

Eric: Well, you should₂ email it to her on Friday.

Mike: Good idea. I'm going to try to talk to her after class.

Eric: You might₃ want to tell her before class starts because I think she has a class right after ours.

Mike: OK, thanks. Let's₄ stop at the Student Center before class and get something to eat.

Eric: Sounds good. I haven't had lunch yet.

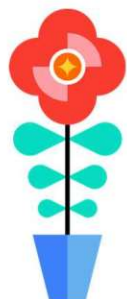

UNIT 5: SPEAKING

INSIDE THE BRAIN

Lecturer: Quynh Trang, MA.

Long Turn

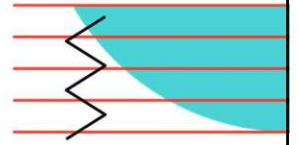

Describe a method to improve your memory.

You should say

- What it is
- How you use it
- When you use it

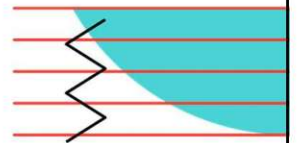

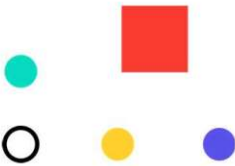

And explain how your memory has been improved.

One powerful strategy for improving memory is adopting a healthy lifestyle, which includes a series of (4 words from the articles) that support cognitive functioning. This approach is especially b..... (1 word) for students and professionals who r..... (1 word) heavily on memory for learning, problem-solving, and task management.

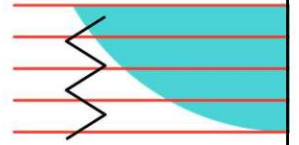

One powerful strategy for improving memory is adopting a healthy lifestyle, which includes a series of **lifestyle practices and habits** that support cognitive functioning. This approach is especially **beneficial** for students and professionals who **rely** heavily on memory for learning, problem-solving, and task management.

People use this strategy by focusing on key behaviors. First, (3 words from the articles) — ideally (6 words from the articles) — is extremely essential for (4 words from the articles), as sleep allows the brain to process and store information more effectively. Second, regular movement has been shown to (5 words from the articles), with different exercise (1 word from the articles) (1 word from the articles) different types of recall.

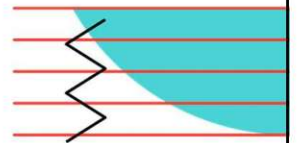

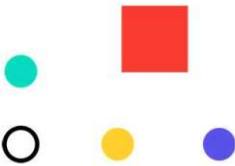

People use this strategy by focusing on key behaviors. First, **getting enough sleep** — ideally **7 to 10 hours per night** — is extremely essential for **memory consolidation and retention**, as sleep allows the brain to process and store information more effectively. Second, regular movement has been shown to **boost brain power and memory**, with different exercise **intensities bolstering** different types of recall.

For example, (4 words from the articles) enhances (2 words from the articles), which helps us recall personal experiences, while exercising (2 words from the articles) like running improve (2 words from the articles)—our ability to remember locations and physical arrangements.

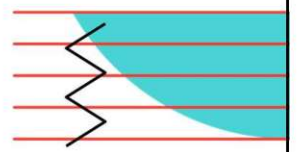

For example, **light to moderate activity** enhances **episodic memory**, which helps us recall personal experiences, while exercising **more intensely** like running improve **spatial memory** —our ability to remember locations and physical arrangements.

This strategy is particularly useful during periods of academic pressure or heavy information processing, when d..... (1 word) on memory are especially high. For students, in particular, strong memory skills are c..... (1 word from the articles) for success, as they directly affect the ability to retain lecture notes, make meaningful c..... (1 word from the articles) between new and old material, and apply knowledge in exams.

This strategy is particularly useful during periods of academic pressure or heavy information processing, when **demands** on memory are especially high. For students, in particular, strong memory skills are **critical** for success, as they directly affect the ability to retain lecture notes, make meaningful **connections** between new and old material, and apply knowledge in exams.

Ultimately, **l.....** (1 word) a healthy lifestyle is more than just a wellness choice — it is a practical method of **e.....** (1 word from the articles) memory.

Ultimately, **leading** a healthy lifestyle is more than just a wellness choice — it is a practical method of **enhancing** memory.
