

WILD WEATHER 4

A forest area in
Großer Feldberg,
Germany

IN THIS UNIT, YOU WILL:

- Watch or listen to a report about strange weather
- Watch a video about tornadoes
- Listen to a documentary about sports and climate change
- Present tips for doing an activity
OR Present a process

THINK AND DISCUSS:

Großer Feldberg ("Great Field Mountain") is part of the Taunus mountains in Germany. The forests in this area are popular with tourists all year round.

1. Describe the photo. What do you see?
2. Read the unit title. What do you think you will learn about in this unit?

EXPLORE THE THEME

Read the information. Then discuss the questions.

1. What kind of weather do you see in this photo? How does it make you feel?
2. Did you know about any of the examples of extreme weather? Do any surprise you?
3. What type of weather do you think is the most dangerous?
4. What is the most extreme weather where you live?

A storm cloud in Colorado, USA

Extreme Weather around the World

The world is becoming warmer, and this is causing more extreme weather. Here are some examples from recent years.

Rain

Zhengzhou, China, had over 64 cm of rain in one day in July of 2021.

Droughts

Between 2014 and 2016, Brazil had its worst drought in 80 years. This caused water shortages in the city of São Paulo.

Floods

In 2022, Pakistan had some of the worst floods in its history. The floods affected 33 million people and destroyed almost 900,000 homes.

Hurricanes

In 2005, Hurricane Katrina hit New Orleans and caused enormous damage. That year, there were 15 hurricanes in the USA—the most active hurricane season ever recorded¹. The year 2022 is second with 14 hurricanes.

Snowstorms

Some parts of New York, USA, received over 180 cm of snow from November 16–20, 2022. In December, the area received another 125 cm.

High temperatures

In Iseaki, Japan, temperatures reached 40.2 degrees Celsius (104.5 degrees Fahrenheit) on June 25, 2022. That is the hottest temperature ever recorded during June in Japan.

Tornadoes

The widest tornado ever recorded was in El Reno, Oklahoma, USA, on May 31, 2013. It was 4.18 km wide.

¹recorded (adj) written down

A Vocabulary

A Listen and repeat. Check (✓) any words you already know. 

amount (n)	drought (n)	forecast (n)	predict (v)	storm (n)
destroy (v)	flood (n)	measure (v)	rainfall (n)	temperature (n)

B **MEANING FROM CONTEXT** Read the article. Choose the correct words. Then listen and check your answers. 

WATER FROM THE SKY: TOO MUCH OR NOT ENOUGH?

"How much rain did we get?" It's an important question because all life on Earth depends on ¹ (storms / rainfall). When we get the usual ² (forecast / amount) of rain, we're happy. The problems come when we get too much rain or not enough. In southwest and northwest China, for example, there were many ³ (storms / temperatures) in July 2022. They brought too much rain, and there were ⁴ (droughts / floods) in the area. Many people lost their homes, and some people died.

In the same month, India's capital city, Delhi, had no rain. The ⁵ (temperature / amount) was 50°C (122°F) with ⁶ (droughts / floods) in many regions. The terrible weather ⁷ (destroyed / measured) food crops.

Because rainfall is so important, scientists try to ⁸ (destroy / predict) the amount of rainfall different parts of the world will receive. To do this, they ⁹ (measure / flood) air and ocean temperatures and study how the air is moving around the world. They can then make weather ¹⁰ (storms / forecasts). The scientists are not always right, but they usually know when we'll probably have large amounts of rain or not enough.

C Write each word in the boxes next to a statement about the weather.

drought	flood	forecast	measure	storm
---------	-------	----------	---------	-------

- _____ It will be sunny on Wednesday.
- _____ It rained for five days. There was water everywhere!
- _____ How many inches of rain did we have last night?
- _____ I'm not going outside! I'm afraid of lightning.
- _____ After three years of almost no rain, it's too dry for plants or animals.

amount destroy predict rainfall temperature

6. _____ Two of the school's walls and the roof fell down during the storm.
7. _____ We had three inches of snow last night.
8. _____ It's cold—only 2.2°C.
9. _____ I think it'll be sunny tomorrow.
10. _____ There was a lot over the weekend, and there were floods everywhere.

D Complete the conversations with words from exercise A. Then practice with a partner.

1. A: What's the weather _____ for tomorrow?
B: I think it's going to rain, but let me check on my phone.
2. A: What was the worst _____ in your hometown? Were you scared?
B: One year, we had thunder and lightning, and a tree fell on our house! That was scary!
3. A: In my country, 28°C is hot. What _____ is hot in your country?
B: I'm from Oman, so in the summer, it's usually over 35°C in the summer.

E PERSONALIZE Discuss the three questions in exercise D with a group. Give your own answers.

F EXPLAIN This photograph by Abdul Momin is called *A Thirsty Earth*. Describe the photo. Why did the photographer give the photo this name?

Critical Thinking

▼ Chittagong, Bangladesh

A Listening Strange Weather

CRITICAL THINKING Remember and Apply What You Know

Before you listen to a talk or lecture, think about what you already know about the topic. You can also write down any words that you expect to hear. This will help you to remember and apply what you already know. For example, you can think about words connected with weather: *rain, sun, temperature*, etc.

Critical Thinking

A You are going to watch or listen to a report about strange weather. Look at the photos. What words do they make you think of? Write down your words.

a. ____ dust devil

b. ____ Catatumbo lightning

c. ____ waterspout

d. ____ ball lightning

B MAIN IDEAS Watch or listen to the report and complete the following.

1. Number the photos in exercise A from 1 to 4 in the order the speaker describes them.
2. What is the main purpose of this report? _____

LISTENING SKILL Listen for Definitions

When speakers introduce new words or ideas, they often define them. When you hear a new word or idea, listen for information after the verb *be*. A definition may be followed by a short description or explanation.

*A storm **is** bad weather with strong wind and rain.*

*A flood **is** when water covers land that is usually dry.*

C Match the types of wild weather to the definitions. Then listen to parts of the report again and check your answers.

- | | |
|-----------------------------|---|
| 1. ____ Catatumbo lightning | a. It's a round light in the sky. It can be red, orange, or even blue. |
| 2. ____ ball lightning | b. It's when strong wind moves in a circle over warm water, and a long, thin cloud moves down to the water. |
| 3. ____ dust devil | c. It's a lightning storm, and it happens over a river in Venezuela. |
| 4. ____ waterspout | d. It's a small tornado. It happens when there is wind and hot weather. |

D DETAILS Watch or listen again and answer each question. Choose T for *True* or F for *False*.

- | | | |
|---|---|---|
| 1. We usually hear about strange weather in a daily weather forecast. | T | F |
| 2. There are a lot of places in Venezuela with Catatumbo lightning. | T | F |
| 3. Catatumbo lightning happens around 150 nights a year. | T | F |
| 4. Ball lightning can make a noise. | T | F |
| 5. A filmmaker in China recently saw ball lightning. | T | F |
| 6. Kenya has a wet season and a dry season. | T | F |
| 7. Dust devils travel faster than 50 miles per hour. | T | F |
| 8. A waterspout in Texas dropped fish onto a town. | T | F |

E PERSONALIZE Discuss these questions with a group.

1. Does strange weather ever happen in your country? What happens?
2. Is the average temperature rising, falling, or staying the same in your country? Why?
3. Imagine you are visiting these places on Earth. What weather do you think you will see?
 - The Sahara Desert
 - Islands in the South Pacific Ocean
 - The Himalayan Mountains

GRAMMAR FOR SPEAKING Count and Noncount Nouns

Count nouns are nouns that we can count. They can be singular or plural.

Singular: *a **person**, one **mountain**, an **umbrella**, a terrible **storm***

Plural: ***people**, two **mountains**, **umbrellas**, terrible **storms**, many **snacks***

Noncount nouns are nouns that we cannot count. They do not usually have plural forms.

temperature**, bright **sunshine**, some **ice**, a lot of **rain

Some nouns can be both count and noncount, but the meanings may be different.

Count: *It rained three **times** last night.*

Noncount: *I don't have any **time**.*

Subject-verb agreement

When count and noncount nouns are the subject of a sentence, use the correct verb form.

Noncount nouns use singular verbs forms.

Count: *An **umbrella** **is** useful in the rain.*

***Umbrellas** **are** useful in the rain.*

Noncount: ***Rain** **is** important for farming.*

*(NOT **Rain** **are** important for farming.)*

- **A** Two friends are packing for a camping trip in the mountains. Complete their conversation with the words from the box. Then practice the conversation with a partner.

are bottles is is raincoats time times umbrella

A: We don't have a lot of ¹_____. The bus leaves in half an hour.

Did you pack your bag?

B: I'm almost done.

A: Why are you taking an ²_____?

B: Because umbrellas ³_____ useful when it rains—obviously! Last time I went to the mountains, it rained three ⁴_____!

A: But that umbrella ⁵_____ huge! Leave it. I have two plastic ⁶_____. They're great because they're small and easy to carry. You can take one of them.

B: OK. And can you bring two water ⁷_____?

A: Sure! Water ⁸_____ important. We may go on a long hike.

- **B** For each noun, write C for count or N for noncount.

 N water _____ gloves _____ battery _____ pen _____ food
 _____ sunscreen _____ umbrella _____ medicine _____ chocolate _____ matches

PRONUNCIATION Syllable Stress

 A syllable is a word or part of a word that has one vowel sound. In words with two or more syllables, we usually stress one syllable. We say it more loudly and clearly.

One syllable

flood
storm

Two syllables

mea•sure
a•mount

Three syllables

pre•dic•tion
*tem•pera•ture**

*With some words, there are silent letters. For example, the second *e* in *temperature* is silent, so the word has three syllables, not four.

 **C** Listen to the words from exercise B. Mark the main stress and write the number of syllables. 

 2 water _____ gloves _____ battery _____ pen _____ food
_____ sunscreen _____ umbrella _____ medicine _____ chocolate _____ matches

 **D** **ARGUE** Imagine you are planning a camping trip to the mountains. In pairs, discuss which items to take in exercise B. Decide which are very useful to take and which are not useful.

Critical Thinking

- > Why are you taking ... ?
- > You (don't) need ...
- > ... is / are (not) useful (because) ...

GRAMMAR FOR SPEAKING A, an, some, any, a lot of

We can use *some*, *any*, and *a lot of* with count and noncount nouns. We use *a* and *an* with count nouns only. We use *some* in affirmative statements and *any* in negative statements.

	Count nouns	Noncount nouns
Affirmative statements	<i>You should bring an umbrella.</i> <i>There are some mountains.</i> <i>He has a lot of warm clothes.</i>	<i>There's some snow.</i> <i>We need some help.</i> <i>There's a lot of grass.</i>
Negative statements	<i>You don't need an umbrella.</i> <i>We don't need any new clothes.</i> <i>It doesn't get a lot of rain.</i>	<i>We don't need water.</i> <i>There isn't any ice.</i> <i>We don't have a lot of time.</i>
Questions	<i>Do I need an umbrella?</i> <i>Do we need some warm clothes?</i> <i>Does the area have a lot of trees?</i>	<i>Do we need water?</i> <i>Do we need any help?</i> <i>Do we have some time?</i> <i>Do we have a lot of time?</i>

- **E** Choose the correct word or phrase in this description of the first photo.

In the first photo, there are ¹ (a / some) beautiful mountains. And in the sky, there are ² (a lot of / any) clouds. There's also ³ (a / some) lake. It looks very cold because there's ⁴ (some / a lot of) snow and ice. There aren't ⁵ (some / any) houses, so I don't think people live here. Visitors would need ⁶ (any / a lot of) warm clothes.

- **F** Work with a partner. Describe the second photo. Talk about:

the mountains the land and the grass the weather and temperature people and visitors

Critical Thinking

- **G PLAN** Work with a group. You are going to take a three-day vacation. Read the list of possible vacation activities. Then add three or more ideas to the list.

- go hiking in the mountains
- visit some museums
- _____
- have a picnic at the beach
- go on a boat tour
- _____
- go shopping
- _____
- _____

Now read the three-day weather forecast and discuss your weekend plans. Follow these steps:

- As a group, choose two of the activities for each day and complete the schedule below.
- Discuss what you need to bring on the trip for each activity.

Friday	Saturday	Sunday
		
A lot of sunshine today; cooler temperatures in the morning; hot by early afternoon	Morning rain showers; thunderstorms possible in the afternoon; clear and cool at night	Partly cloudy and warmer; windy in the afternoon, with winds up to 48 kph

Friday	Saturday	Sunday
a.m.	a.m.	a.m.
p.m.	p.m.	p.m.

A: Friday afternoon will be hot. Let's go to the beach in the afternoon.

B: OK. So, we need to bring sunscreen and ...

Understanding Tornadoes

extreme (adj) very unusual or serious
fascinated (adj) very interested in a subject
column (n) a tall vertical shape

form (v) to begin to happen
turning (adj) moving in a circle around a point

▲ Anton Seimon is an atmospheric scientist and a National Geographic Explorer.

• **A** Read the statements. Watch the video. Choose T for *True* and F for *False*. ▶

- | | | |
|---|---|---|
| 1. Anton Seimon is a scientist and a National Geographic Explorer. | T | F |
| 2. He was interested in things like extreme weather from a young age. | T | F |
| 3. There are three main steps to a tornado forming. | T | F |
| 4. Tornadoes are usually four kilometers wide on the ground. | T | F |
| 5. Anton's work helps to predict storms. | T | F |

• **B** Watch again. Answer each question in a few words. ▶

1. What subjects fascinated Anton as a child? _____
2. In step one, warm, wet air goes upwards. What does it meet? _____
3. Wind shear means the wind changes. Does it move up or down? _____
4. In step three, the air gets hotter and rises. What kind of movement happens in step four?

5. What was important about the El Reno tornado in 2013? _____

6. What happened to Anton's friend during the El Reno tornado? _____

C **RECALL** Watch the video two more times with the sound off. With a partner, take turns narrating the video. Use the information in exercises A and B and your own words. ▶

Critical Thinking

B

Vocabulary

A Listen and repeat. Check (✓) any words you already know. 🔊

average (adj)
decrease (v)

effect (n)
heat (n)

increase (v)
location (n)

prevent (v)
reach (v)

rise (v)
season (n)

B **MEANING FROM CONTEXT** Read and listen to the article. Think about the meaning of the words in blue. Write each word next to its definition. TWO words have the same definition. 🔊

TOO HOT TO SLEEP

In warm **seasons**, we often notice the **heat** during the day. However, when the temperature **increases** at night, it has an **effect** on our sleep. A new study shows that as global temperatures **rise**, people go to bed later, sleep badly, and wake up earlier.

Researchers at the University of Copenhagen studied the sleep of 50,000 people. They looked at sleep information from their activity trackers. Then the researchers matched that information to the people's **location** and the local temperature. The study found that people sleep longer when the outside temperature is below 10°C. When the outside temperature **reaches** 25°C, it **prevents** people from sleeping. Sleep **decreases** about 15 minutes a night for the **average** person. This might not sound like a lot, but over a long time, less sleep is bad for our health.

A sleep tracker app

- _____ (v) to go up in an amount or number
- _____ (n) the noun form of *hot*
- _____ (n) a period in the year, such as winter
- _____ (v) to arrive at something, such as a place, speed, or height
- _____ (n) a change or result
- _____ (v) to go down in an amount or number

7. _____ (v) to stop somebody from doing something
8. _____ (n) a place where something happens
9. _____ (adj) typical or normal

VOCABULARY SKILL Synonyms

Many words have the same or similar meanings.

*The temperature **increases** during the day. = The temperature **rises** during the day.*

Sometimes one word is better in a particular situation. For example, *tall* and *high* are synonyms, but we use *tall* for people and *high* for places.

*My brother is very **tall**.*

*The mountain is very **high**.*

Pay attention to how you hear or see words used to learn which word is the best choice.

- C** Cross out the bold word in each sentence and write the correct form of a synonym from exercise A.

1. The temperature didn't **go down** _____ very much last night.
2. The bed was uncomfortable, but it didn't **stop** _____ me from sleeping.
3. During the summer, the temperature can **get up to** _____ 50°C in Oman.
4. One **result** _____ of climate change is hotter temperatures in some countries, but colder weather in others.
5. The rainy **time** _____ in India is usually from July to mid-September.
6. The seas are **getting higher** _____ as the average temperature increases.

- D PERSONALIZE** Answer the questions in this survey. Then interview your partner and write their answers. Which answers are similar or different?

Sleep Survey		
	You	Your partner
1. What's the average amount of sleep you need each night?		
2. How often do you sleep this long?		
3. Does your amount of sleep increase, decrease , or stay the same during different seasons?		
4. What can prevent you from sleeping? (e.g., noise? stress?)		
5. When you sleep badly, what effect does this have on you?		

B

Listening The Future of Sports

Critical Thinking

A ACTIVATE Describe the photo below. Where are the skiers? Why do you think they are practicing in this way? What problem(s) do you see?

B MAIN IDEAS Listen to a documentary about sports and climate change. Number the ideas in the order you hear them. 

- _____ Climate change is changing sports schedules.
- _____ An increase in rainfall and floods will cause problems for some sports.
- _____ Less snow has a negative effect on money and jobs.
- _____ Climate change will have an effect on sports in the future.
- _____ Some countries have to make snow for winter sports.

NOTE-TAKING SKILL Abbreviate Numbers and Measurements

When you take notes, write down important numbers and measurements. You can use abbreviations or symbols for specific measurements.

You hear:

A marathon is forty-two point two kilometers.

Different speakers might use different types of measurement.

A marathon is twenty-six point two miles.

You write:

42.2 km. = a marathon

26.2 mi. = a marathon

▼ Skiers practice skiing in Bessans, France.

- C** Below are some common abbreviations and symbols. Write each one next to the correct word. Then match the word to its definition.

%	\$	1/3	°C	°F	ft.	m.
---	----	-----	----	----	-----	----

Definition

- | | |
|-----------------------------|---|
| <u>ft.</u> 1. foot <u>b</u> | a. a kind of money used in the USA, Canada, and Australia |
| _____ 2. percent _____ | b. a length equal to 12 inches (in) |
| _____ 3. Celsius _____ | c. a scale of temperature; water freezes at 0° |
| _____ 4. a third _____ | d. one part in every hundred |
| _____ 5. dollar _____ | e. a length equal to 100 centimeters (cm) |
| _____ 6. meter _____ | f. a scale of temperature; water freezes at 32° |
| _____ 7. Fahrenheit _____ | g. a fraction that means one third |

- D DETAILS** Listen again. Write the numbers and figures. Use abbreviations and symbols. 

1. year of the World Cup in Qatar = _____
2. highest summer temperature in Qatar = _____
3. amount U.S. winter sports business is worth = _____
4. number of people U.S. winter sports business employs = _____
5. winter sports decrease in USA = by _____ to _____
6. soccer stadiums in UK to close by 2050 because of floods = _____ in _____
7. golf courses in UK to close by 2050 = _____

- E FOCUSED LISTENING** Listen to these sentences. Write the missing verb or noun and the missing preposition. 

1. Climate change will have an _____ when you play some sports.
2. Usually, the Olympic Games take _____ different countries during the summer months.
3. In 2022, the World Cup _____ Qatar.
4. The winter sports business is worth \$60 billion, and it _____ 900,000 workers.
5. The _____ storms and bad weather at sea causes problems for these sports as well.

- F ANALYZE** Discuss these questions with a partner.

Critical Thinking

1. Do you think climate change will have an effect on sports in your country? Which sports?
2. What are some possible solutions to these changes to sports?

SPEAKING SKILL Express Likes and Dislikes

We can use many different verbs to express that we like or don't like something.

Likes:	<i>I (really) like ...</i>	<i>I enjoy ...</i>	<i>I prefer ... (to...)</i>	<i>I love ...</i>
Dislikes:	<i>I (really) don't like ...</i>	<i>I dislike ...</i>	<i>I hate ...</i>	<i>I can't stand ...</i>

Say *I don't mind ...* when you have no strong preference.

*I **don't mind** the rain. It doesn't bother me.*

When you say you like or dislike something in a conversation, you can give a reason.

*I **really like** the rain because I can stay inside and read.*

*I **can't stand** the heat. When it's 40°C, I can't walk anywhere.*

- **A** Read and listen to the paragraph below. Then answer the question and find the expressions. 🔊

1. What is the definition of a *chionophile*? _____
2. Underline the verbs that express likes.
3. Double-underline one expression that expresses a dislike.

Most people like to live in a warm climate, or they prefer going to hot places for vacation. But I'm a *chionophile*. That means I love cold weather! I enjoy walking through the snow because it's so quiet. That doesn't mean I like to be cold. I can't stand it! But I like to be warm in cold places, so I have a very warm coat.

A man tries to stay warm during a winter storm. ➤

- B** Work with a partner and take turns. Talk about weather you like and dislike, and give reasons. Use the ideas and expressions below. Do you have the same likes and dislikes?

I like ...	I dislike ...
I enjoy ...	I hate ...
I love ...	I can't stand ...
I prefer ...	I don't mind ...

rainy days	sunny weather
cloudy days	strong wind
storms	thunder and lightning
hot / cold weather	snow

A: I enjoy sunny weather. I can go for a run or play tennis.

B: Me, too! I hate storms. I like to spend time outside.

GRAMMAR FOR SPEAKING Verb + Gerund or Infinitive

After verbs such as *like*, *love*, *prefer*, *don't like*, *can't stand*, and *hate*, use either the infinitive form or the gerund form. There is little or no important change in meaning.

I like to live in a warm place.

I like living in a warm place.

After other verbs such as *enjoy*, *dislike*, and *don't mind*, use the gerund form.

I enjoy walking through snow.

(NOT I enjoy to walk through snow.)

For a list of verbs followed by gerunds and infinitives, see the Appendix.

- C** Choose the correct answer. In some sentences, both answers are correct. Then practice the conversations with a partner.

A: Do you like ¹ (to go / going) out when it snows?

B: Yes, I do, because I really enjoy ² (to ski / skiing).

A: I can't stand ³ (to watch / watching) old movies. They're so slow! What about you?

B: I don't mind ⁴ (to watch / watching) them. Sometimes they're funny.

A: How do you feel about classical music?

B: I love ⁵ (to listen / listening) to it. It's so relaxing.

A: Do you prefer ⁶ (to drink / drinking) tea or coffee?

B: I don't mind ⁷ (to have / having) either. But I probably drink more coffee in the morning and more tea in the afternoon.

- D PERSONALIZE** Work with a partner. Take turns asking A's questions in exercise C. Give your own answers.

- E CREATE** Work with a group. Ask questions. Talk about some of your likes and dislikes, and give reasons. Add at least three new topics.

Critical Thinking

go to the movies	play water sports	play tennis	go out in cold weather
listen to classical music	eat fast food	do homework	sit outside in hot weather
watch the Olympic Games	_____	_____	_____

Review

SELF-ASSESS

How well can you . . . ?	Very well.	OK.	I need improvement.
use the key vocabulary	☐	☐	☐
recognize syllable stress	☐	☐	☐
use count and noncount nouns; <i>a, an, some, any, a lot of; gerunds</i> and infinitives	☐	☐	☐
express likes and dislikes	☐	☐	☐

A VOCABULARY Write the missing word from the unit in each sentence.

1. *Stop* is a synonym of *p* _____.
2. *H* _____ is the noun form of *hot*.
3. *Drought* is the opposite of *f* _____.
4. *L* _____ is a synonym for *place*.
5. Spring is my favorite *s* _____.
6. *Result* is a synonym for *e* _____.

B PRONUNCIATION Match the words to the syllable stress in the chart. Then find ONE more word in this unit for each category and add the words to the chart.

battery	destroy	measure	storm	umbrella
●	● ●	● ●	● ● ●	● ● ●
<i>storm</i>				

C GRAMMAR Write *a, some, any, and a lot of* in these sentences. Then look at the nouns in bold. Write C for count and N for noncount next to each word.

1. We should take _____ **camera** with us.
2. Don't worry about bringing lunch. I have _____ **sandwiches** in my bag.
3. There isn't _____ **water** in my bottle. I'll need more by lunchtime.
4. Do we need _____ **money** or is the concert free?

D SPEAKING SKILL Complete each sentence. Say what you like and dislike.

1. When it rains, I don't like . . .
2. During a storm, I hate . . .
3. On a sunny day, I love . . .
4. In the winter, I enjoy . . .

RE-ASSESS What skills or language do you still need help with?

OPTION 1 Present tips for doing an activity

A Read these tips for playing a sport in the heat.

5 Tips for Doing Sports in the Summer

Don't let hot weather stop you from doing sports.

◀ Racers run a marathon during a hot summer day.

B In groups, choose one of these topics. Discuss your topic and think of five tips to help others.

1. Five tips for doing sports in the winter
2. Five tips for sleeping better in the summer
3. Five tips for going hiking in the mountains

C Join another group and present your five tips. As you listen to the other group, answer these questions:

- Do you think their tips are useful to others?
- Do you have any questions about their tips?
- Do you have any suggestions to make their tips more useful?

OPTION 2 Present a process

- A MODEL** A student is presenting a process. He uses these sentences in his presentation. Number them in the order you think is correct. Then listen to check. 

- a. ____ This next slide shows the process.
- b. ____ As you can see, it looks like a big snowball.
- c. 1 Today, I'd like to talk about a strange type of weather called a snow roller.
- d. ____ In stage two, the wind starts to blow.
- e. ____ And finally, the snow starts to roll down the mountain.
- f. ____ First, I'll give a definition, and then I'll explain the process.
- g. ____ Take a look at this photo. It shows a snow roller.
- h. ____ In stage one, you have snow on the side of a mountain.

PRESENTATION SKILL Use Slides

We often use and refer to slides in a presentation. Slides can include:

- The title of your presentation
- A photo or image connected to the topic
- Bullet points with key information; for example, the steps of a process
- A graph or chart showing data or information

When you show a slide and talk about it, use phrases such as these:

Take a look at this photo/chart/slide.

It shows...

As you can see, ... This next slide shows...

Look at the...

 **ONLINE** When you present online, your audience is closer to the screen, so you might need to change your slides. For example, the pictures and text can be smaller.

- B PLAN** Prepare a short presentation with two slides. Choose one idea:

- How something happens in nature (e.g., a type of weather)
- A type of sport and the basic rules (e.g., a sport you like)
- The seasons in your country (e.g., which months and the typical weather for each)

- C PRACTICE AND PRESENT** Practice your one-minute presentation with the slides. Then present it to the class.
