

FOOD ON THE MOVE

5

A market seller in Indonesia serves sweet and salty snacks.

IN THIS UNIT, YOU WILL:

- Watch or listen to a doctor talk about food and health
 - Watch a video about how we taste food
 - Listen to a radio show about ugly foods
 - Do a food survey
- OR Present an argument about food

THINK AND DISCUSS:

1. Do you know any of the foods in the photo? Which ones look interesting to you?
2. Where and with whom do you eat most of your meals?
3. Read the unit title. What do you think you will learn about in this unit?

EXPLORE THE THEME

Read the information. Then discuss the questions.

1. Which of these foods do you enjoy?
How often do you have it?
2. Before you read this information, where did you think these foods came from?
3. Do you know or can you find any other interesting food facts?

1 Doughnuts

ORIGIN: The Netherlands

The Dutch brought doughnuts to New York in the early 19th century. These doughnuts looked similar to modern doughnuts, but they were not ring-shaped.

Five Foods with Surprising Origins

2 Vindaloo

Origin: Portugal

Sailors brought vindaloo from Portugal to Goa in India. Vindaloo is a spicy meat dish. Other types of vindaloo are made with vegetables or tofu.

3 Croissants

Origin: Austria

Surprisingly, croissants do not originally come from France. People first made them in the 13th century in Austria. They did not become popular in France until the 19th century.

4 Churros

Origin: China

There are several stories about the origin of churros. One says that Portuguese sailors first ate them in China. Then they brought the idea to Latin America.

5 Coffee

Origin: Ethiopia

Coffee first went from Africa to Europe and then across the globe. After water, it is the most popular drink in the world. People around the world drink about two billion cups of coffee every day.

A

Vocabulary

- **A** Listen and repeat. Check (✓) any words you already know. Then write each word next to its definition. Use a dictionary to help you. 

calorie (n)	fast food (n phr)	industry (n)	processed (adj)	throw away (v phr)
diet (n)	fresh (adj)	physical (adj)	regular (adj)	weight (n)

- _____ (adj) recently grown or made
- _____ (n) a unit to measure the energy in food
- _____ (n) a kind of business that makes things
- _____ (n) how heavy somebody or something is
- _____ (adj) connected with the body
- _____ (v phr) to get rid of something you don't want
- _____ (n) the food you normally eat
- _____ (adj) (food) changed before selling
- _____ (n phr) food, such as burgers and french fries, made quickly
- _____ (adj) doing something often as a routine

- **B** **MEANING FROM CONTEXT** Complete the article with the words from exercise A. Then listen and check your answers. 

WHAT'S NEW IN COOKING?

Around the world, meat is still a ¹ _____ part of most people's weekly ² _____. But many doctors and health experts are telling us to eat a smaller amount of meat and to do more ³ _____ exercise. And many people *are* trying to eat more fruit and vegetables. This type of food is also better if you are counting ⁴ _____ and trying to lose ⁵ _____. As a result, the food ⁶ _____ is trying to sell us more vegetarian products. Now you can buy vegetarian ⁷ _____, like burgers and fried chicken. However, even though this is not meat, it's still ⁸ _____ food. It comes in packaging that you ⁹ _____, and then you heat the food up in a microwave. So whatever your diet—meat or vegetarian—try to eat food that is ¹⁰ _____ rather than out of a package.

▲ A fruit vendor in São Paulo, Brazil

VOCABULARY SKILL Compound Words

Sometimes we put two or more words together to make a new word. You might see these compound words written as one or two words. There are many compound words for food.

Two words: *fast food, french fries, meat eater*

One word: *breadstick, seafood, strawberry*

- **C** Match the words to make compound words connected with food. Use a dictionary to check if they are written as one word or two words.

First word		Second word			
ice	egg	burger	mint	1. _____	5. _____
cheese	hot	corn	fruit	2. _____	6. _____
pepper	pop	cream	dog	3. _____	7. _____
pea	grape	nut	plant	4. _____	8. _____

- D RECALL** Work with a partner and take turns. Play this vocabulary game.

Critical Thinking

- Student A: Read a first word in exercise C aloud.
- Student B: Close your book and try to remember the correct second word.

When you finish, think of two more compound words. Say the first word to your partner. Your partner guesses the second word.

- E PERSONALIZE** Discuss these questions with your partner.

1. How often do you eat each food in exercise C? A lot? Sometimes? Never?
2. When do you eat it? For example, with a meal? At the movies?

Listening Food Fact or Fiction?

CRITICAL THINKING Recognize a Speaker's Point of View

A point of view is a person's opinion about a topic or idea. A speaker's point of view affects what they say. It's important to recognize a speaker's point of view because it affects the information you hear. Notice how three different speakers can talk about the same topic.

Food advertiser: *Our new healthy chocolate bars are delicious and good for you!*

Doctor: *These chocolate bars have a lot of calories, so don't eat too many.*

Student: *These chocolate bars give me energy to stay awake.*

Critical Thinking **A** Match the comments about food to each speaker's point of view.

COMMENT

1. ____ You don't need to eat meat if you eat the correct amount of fruit and vegetables.
2. ____ You can eat fruit and vegetables, but you also need meat for good health.
3. ____ You can eat anything, but don't eat more than 2000 calories a day.

SPEAKER

- a. Someone who isn't vegan or vegetarian
- b. Someone who is advertising a new type of diet
- c. Someone who wants you to eat a plant-based diet

There is a lot of different information about food and health. It can be difficult to decide what to believe.

- **B ACTIVATE** You are going to hear a doctor talk about food and health. Listen to the first part of his lecture. Choose his point of view. 

The doctor's point of view is:

- You can find many useful facts about food and health in the news.
- Everything you learn about food and health is usually wrong.
- Some facts about food and health are true but not always.

- **C MAIN IDEAS** Watch or listen to the lecture. Number the ideas in the order he talks about them. Then discuss which ideas are true with the class.  

- _____ Drink eight or more glasses of water a day.
- _____ When you exercise a lot, you lose weight.
- _____ There is a right way to eat.
- _____ Plant-based diets are better than meat-based diets.

LISTENING SKILL Listen for Reasons

Reasons help make ideas clear. They are often important details in a lecture or talk. Listen for words that signal a reason.

- **The reason is (that) ...**
- **... because ...**
- **That's because ...**

*Doctors usually tell people to eat a lot of fruit and vegetables every day. **That's because** they help prevent heart problems.*

These words come after a reason.

- **That's why ...**
- **..., so**

*Fruit and vegetables help prevent heart problems and illness. **That's why** doctors tell people to eat five a day.*

- **D DETAILS** Watch or listen again. Are these statements true or false according to the doctor?  

- | | | |
|--|---|---|
| 1. People are drinking more water because they're buying bottled water. | T | F |
| 2. Plastic bottles are bad for the environment because we throw them away. | T | F |
| 3. Drinking a lot of extra water makes you healthier. | T | F |
| 4. The doctor gives reasons why we should eat less red meat. | T | F |
| 5. Some vegan products have extra salt or sugar because they are processed. | T | F |
| 6. Most people can eat more and lose weight because they do more physical exercise. | T | F |
| 7. The doctor doesn't believe good science supports all the different diets. | T | F |
| 8. 200 calories of nuts are healthier than 200 calories in a candy bar because nuts are fresh. | T | F |

- E PERSONALIZE** Choose the answers that are true for you. Then compare with a partner.

- I drink (more than / less than) six glasses of water a day.
- I prefer to drink water from (a plastic bottle / the tap).
- (Most of / Some of / Not much of / None of) my diet is meat.
- I eat (more / less) fresh food than fast food.
- Overall, I think the doctor in the lecture gave (very / not very) useful advice.

A Speaking

See Critical
Thinking:
Analyze
Graphics in
Unit 3.

A ANALYZE Study the infographic at the bottom of the page. Then discuss the questions with your classmates.

1. Which countries is this information about?
2. What percentage of fruit and vegetables do people eat in those countries?
3. What percentage of food do we lose or throw away in these locations?
 - farms
 - storage / transportation
 - processing
 - supermarkets
 - homes
4. When do we lose or throw away the most food in the process? Does this surprise you?

GRAMMAR FOR SPEAKING *A lot of, much, many, few, little, enough*

We use these words to talk about amounts.

Noncount nouns

↑	There's	a lot of a little not much	food.
↑	There's	too much enough not enough too little	food.

Plural count nouns

↑	There are	a lot of a few not many	apples.
↑	There are	too many enough not enough too few	apples.

- Use *too much* and *too many* to say you have more than the right quantity.
- Use *(not) enough* to say you have or don't have right quantity.
- Use *too little* / *too few* to say you have less than the right quantity.

*AUSTRALIA, CANADA, NEW ZEALAND, AND U.S. DATA ONLY

- **B** Choose the correct words to complete this conversation about the infographic at the bottom of the page. Then listen and check. 🎧

A: According to this infographic, we all throw away ¹ (too much / too many) food.

B: I know! We lose ² (a few / a lot of) food at the beginning of the process.

A: Yes, I don't understand the reason they lose 20 percent on the farm. There's not ³ (much / many) information about that.

B: Maybe they have ⁴ (too few / too little) people to pick all the fruit and vegetables?

A: Maybe. But we also throw away 19 percent of the food in our homes. It doesn't make sense. Why do people throw good food away?

B: I agree. Yesterday, I bought ⁵ (too much / too many) oranges by accident. I gave ⁶ (a few / a little) to my neighbor, so we both have ⁷ (enough / a little) for the week.

A: And overall, we throw away more than we eat! But, at the same time, there are other countries that have ⁸ (too little / too few) food. It's crazy!

- C** What are your food habits? Work with a partner and take turns. Make sentences using the words in the chart and your own ideas.

> *I don't eat many sweets.*

I eat / drink	a lot of	apples	nuts
I don't eat / drink	many / much	cheese	rice
	enough	coffee	salads
	too many / too much	eggs	soda
	too few / too little	fast food	sweets
		fruit	vegetables
		meat	yogurt

■ What We Throw Away
■ What We Lose

PRONUNCIATION Long and Short Vowel Sounds

 Vowel sounds can be long or short.

- With **long vowel sounds**, your lips, tongue, and cheeks are more tense.
- With **short vowel sounds**, the lips, tongue, and cheeks are relaxed.

Long	Short
/ iː / eat	/ ɪ / it
/ eɪ / paper	/ ɛ / pepper
/ ɑ / not	/ ʌ / nut

D Listen and repeat these word pairs with long and short vowel sounds. Notice how the muscles change in your mouth. 

- | | | |
|---------------|---------------|------------|
| 1. heat–hit | 3. taste–test | 5. cop–cup |
| 2. cheap–chip | 4. weight–wet | 6. hot–hut |

E You will hear words from exercise D again. Some pairs are the same (heat–heat) and some are different (heat–hit). Write *S* if you hear the same words. Write *D* if you hear different words. 

1. D 2. _____ 3. _____ 4. _____ 5. _____ 6. _____

F Say these words from this unit with a partner. Categorize them in the chart under the vowel sound. Then listen and check. 

tea based lot eight hungry drink little fresh red cut pop meat

/ iː /	/ ɪ /	/ eɪ /	/ ɛ /	/ ɑ /	/ ʌ /
tea					

Critical Thinking **G** **SOLVE** Take this food quiz with a partner. Give reasons for your answers.

Food Fact or Fiction?

Read these statements about food and decide if they are fact or fiction.

	Fact	Fiction
1. Don't eat any fat. It's bad for you.	☐	☐
2. Eat more carrots because they are good for your eyes.	☐	☐
3. Your body needs a cup of sugar every day.	☐	☐
4. Fast food has too much salt, but a little salt on fresh food is OK.	☐	☐
5. Around 95% of a cucumber is water, so it doesn't have many calories—about 30 in total.	☐	☐

A: I think statement 1 is a fact because there's fat in food like meat and butter.

B: I agree that some fat is bad for you, but not all fat. The human body needs fat.

How We Taste Food

Video

taste buds (n) the small parts on the tongue for tasting
sour (adj) having a sharp taste, like a lemon

bitter (adj) having a strong taste with very little sugar, like coffee

▲ Everyone has a different number of taste buds. The average person has 2,000 to 10,000 taste buds.

- **A** Watch the video. Check (✓) the things that have an effect on taste according to the speaker. Which thing is most important? ▶

☐ color ☐ shape ☐ sound ☐ temperature ☐ packaging ☐ smell ☐ taste buds

- **B** Watch again. Complete each item with ONE word or number. ▶

1. The taste buds on our _____ help us figure out what we're eating.
2. _____ % to _____ % of what we call taste is about the smell of food.
3. If a food is red, the brain guesses it tastes _____.
4. _____ foods can taste more sour.
5. _____ foods can taste more bitter.
6. _____ foods can taste more salty.
7. A dessert on a _____ plate may taste sweeter.
8. A dessert on a _____ plate may taste more bitter.

- C EXPLAIN** Work with a partner. Think of a food you both like to eat. Discuss these questions.

| Critical Thinking

1. How important is the smell of this food? Can you describe the smell?
2. When you prepare or eat this food, do you hear any special sounds?
3. What color is this food? Does it taste sweeter, more sour, bitter, or salty?

- **A MEANING FROM CONTEXT** Look at the image. Then read and listen to the information. Think about the meaning of each word in blue. Write each word next to its definition. 

THE EXPERIENCE OF TASTE

When we eat, all the **senses** work together and have an effect on our experience. It begins with the **smell** and **sound** of cooking from the kitchen and the **sight** of food on the table.

Then, when we put the food in our mouth, all this information travels to our brain, and we experience **flavor**. In addition, our memory tells us if we liked this food in the past. Our memory can also **connect** the **taste** with a past experience, like a favorite holiday.

People prefer different types of food as well. Maybe you like a soft banana, but I prefer a harder apple. The way food feels in our mouths or when we **touch** it is also a part of taste.

Finally, the **appearance** of food is important, too. When you see food that is new, strange, or even ugly, do you want to try it? Or are you **nervous** because you might not like the taste? If we understand why we like the foods we do, maybe we will throw less food away.

1. _____ (adj) feeling worried or frightened
2. _____ (n) something you hear
3. _____ (n) sight, hearing, smell, touch, and taste
4. _____ (n) the sense you use your nose for
5. _____ (v) to join together two or more things
6. _____ (n) the feeling of flavor when you put food in your mouth
7. _____ (n) the ability to see
8. _____ (v) to put your hand onto something
9. _____ (n) the way that somebody or something looks on the outside
10. _____ (n) the particular taste of food or drink

B Listen and repeat the words from exercise A. 

C ANALYZE The word *touch* can be a verb and a noun: *He touched my hand. / I felt a touch on my hand.* Check (✓) the other words that can be both verbs and nouns. Use a dictionary to help you.

Critical Thinking

☐ appearance ☐ smell ☐ taste ☐ sight ☐ sound

D Match the two parts of the sentences.

- | | |
|---|--|
| 1. I don't like the appearance of ____ | a. fresh strawberries. They are so sweet. |
| 2. I like the taste of ____ | b. people cooking, it makes me hungry! |
| 3. I'm nervous to try ____ | c. toast is fantastic when you wake up in the morning. |
| 4. The smell of ____ | d. very hot, spicy food. I'm afraid it will hurt my mouth. |
| 5. When I hear the sound of ____ | e. cauliflower because it looks like a human brain! |

E PERSONALIZE Work with a partner and take turns. Say FIVE new sentences about the senses using these phrases.

1. I don't like the **appearance** of ... because ...
2. I like the **taste** of fruit such as ...
3. I'm **nervous** to try ...
4. The **smell** of ... is ...
5. When I hear the **sound** of ..., I think of ...

F Answer the questions and write notes in the chart. Then tell your partner about your answers.

1. What is your favorite food? Why do you like it?	
2. Do you connect any food with a memory? What is the food? Why?	
3. Think of a food that you ate recently. Describe the senses you used as you ate it.	

B

Listening Ugly Food

Critical Thinking

A ACTIVATE Look at the photos of food. With a partner, ask and answer these questions about them.

1. Are any of these foods common in your country? Do you like them? Why? Why not?
2. Which of the foods do you want to try? Why?
3. Are there any of them that you don't ever want to try? Why not?

▲ green tomatoes

▲ blue cheese

▲ oysters

▲ passion fruit

NOTE-TAKING SKILL Use a T-Chart

One way to organize your notes is in a T-chart. For example, you can write main ideas on the left and write any supporting examples and reasons on the right.

Main ideas

Our senses help us choose food that is good for us.

Supporting examples or reasons

*Our eyes like bright colors.
Bright colors mean food is good for us.*

- B MAIN IDEAS** Listen to a radio show about ugly foods. Complete the main ideas (1–5) with ONE or TWO words. 

Main ideas	Supporting examples or reasons
1 _____ help us choose food that is good for us.	- eat fruit and vegetables of all ⁶ _____ - smell tells you if something is ready ⁷ _____ - at a market, you can often try ⁸ _____
Sound has an effect on ² _____.	- bells on a truck make ice cream ⁹ _____ - tap melons to ¹⁰ _____ if ready
The sense of ³ _____ is important.	- peach not too soft but not hard - carrot ¹¹ _____ rough and bumpy
We taste with our ⁴ _____ first.	- In a study, people liked a meal more because of ¹² _____. - We are nervous to try food that looks ¹³ _____.
We should eat more ⁵ _____.	- still good to eat - ¹⁴ _____ food waste - can save ¹⁵ _____

- C DETAILS** Listen to the radio show again. Complete the supporting examples or reasons (6–15) with ONE or TWO words. Then compare your notes from exercises B and C with a partner. Did you write the same information? 

- D FOCUSED LISTENING** Each phrase from the radio show is missing one adjective. Listen to the sentences and complete the phrases. 

- _____ red tomatoes
- smell _____
- food is fresh and _____ for us
- makes the ice cream taste _____
- _____ on the inside and ready to eat
- appearance is _____
- doesn't look _____

- E PERSONALIZE** Discuss these questions with a group.

- What foods from your culture are popular in other parts of the world? Why do you think they are popular?
- What foods from your culture might seem strange to other people? Why?

SPEAKING SKILL Tell a Story

When you tell a story and talk about your past, it will be clearer to listeners if you put the events in the order they happened. Use these expressions to tell the order.

Introduction: *In my country, we ... / When I was a child, ... / Once, a few years ago, ...*

Background: *During the holidays, ... / Every day, I went to ... / We always had ...*

Sequence of events: *One day, ... / In the morning, ... / Then, ... / After that, ... / Later (on), ...*

Ending: *In the end, ... / Finally, ... / A few years later, ... / Even today, ...*

You can also make your story more interesting with descriptive adjectives.

*The bread was good. (less descriptive) → The **warm** bread was **delicious!** (more descriptive)*

A Look at the photo of *momos* on the next page. Do you know this food? Do you have any similar type of food in your country?

B Read sentences from a story about momos in the wrong order. Number them in the correct order (1–6). Then listen and check. 

- a. ____ In the afternoon, there was usually a delicious smell coming from the kitchen of Pema's house. Her mother made a traditional Nepalese food called momos. First, she made the dough.
- b. ____ Pema and I counted them and divided them equally. I loved them because they were warm and spicy!
- c. ____ We became good friends, and during the holidays, I played with Pema every day.
- d. ____ When I was a child, I remember a new family moved into the house next door. They were from Nepal, and their daughter was called Pema.
- e. ____ Then she put meat or vegetables inside the momos and cooked them. Finally, the momos were ready.
- f. ____ A few years later, Pema and her family moved away, but even today, I remember the wonderful taste!

C The text in exercise B describes the momos as "warm and spicy." Look at these adjectives to describe food. Check (✓) any you know. Use a dictionary to find the meanings of any you don't know.

bitter	delicious	healthy	salty	sour	sweet	warm
crispy	fresh	homemade	soft	spicy	tasty	wonderful

A man makes momos in Kathmandu, Nepal.

- **D** Work with a partner. Use adjectives in exercise C and your own ideas to describe these types of food.

apples chocolate cake french fries pasta pizza rice your favorite food

> *French fries are crispy and salty. But they aren't very healthy!*

- E CREATE** Think about and plan a food story you can tell. Make notes in the chart.

Critical Thinking

Introduction	
Background	
Sequence of events	
Ending	

- F** Prepare to tell your food story. Remember to use:

- your notes and ideas from exercise E
- time markers and expressions
- descriptive adjectives from exercise C

When you are ready, work with a partner and take turns to tell your stories.

Review

SELF-ASSESS

How well can you . . . ?

	Very well.	OK.	I need improvement.
use the key vocabulary	☐	☐	☐
pronounce long and short vowels	☐	☐	☐
use <i>a lot of, much, many, few, little, and enough</i>	☐	☐	☐
tell a story	☐	☐	☐

- A VOCABULARY** Complete these questions with words from the unit. Then say answers to the questions.

- Which is the most important of the _____ for you? Sight, smell, sound, touch, or taste? Why?
- What's your favorite _____ of ice cream? Chocolate, strawberry, or something else?
- Choose a beautiful or ugly vegetable. Can you describe its _____?
- Which do you prefer: processed food or _____ food?

- B PRONUNCIATION** Match the words with the same vowel sound. Write the SIX pairs of words. Then practice saying the words.

cheap eat fresh hit hungry little loss not nut taste test weight

- cheap eat 3. _____ 5. _____
- _____ 4. _____ 6. _____

- C GRAMMAR** Complete these sentences about you and your home.

- In my house, I (have enough / don't have enough) _____
- In the living room, there (aren't many / isn't much) _____
- In my bedroom, I always have (too many / too much) _____
- In the kitchen, there (are / is) (too few / too little) _____

- D SPEAKING SKILL** Say the first and last sentences from a story about your childhood using these phrases. Your story can be true or imaginary.

• *When I was a child, . . .*

• *In the end, . . .*

RE-ASSESS What skills or language do you still need help with?

OPTION 1 Do a food survey

A Interview two or three classmates with the questions in this chart. Take notes on the answers.

1. What is one of your favorite meals?			
2. Why do you like it?			
3. What is in it? How do you make it?			

B In groups, tell each other about the answers in your survey.

> *I interviewed Ahmed, and one of his favorite meals is kabsa. It's traditional in his country. He likes it because it has a spicy lemon flavor. You make it with rice, meat, . . .*

▼ Chicken kabsa, the national dish of Saudi Arabia

OPTION 2 Present an argument about food

- **A MODEL** Listen to someone presenting an argument. What is the main topic of her argument? 

Main topic: _____

- **B ANALYZE THE MODEL** Listen again and check (✓) the techniques she uses in her presentation. 

1. ☐ She asks the audience some questions.
2. ☐ She shows them a photo of food waste.
3. ☐ She gives some interesting facts and figures.
4. ☐ She tells a story about her childhood.
5. ☐ She tells the audience three things to do next.
6. ☐ She asks the audience to do something when they leave.

PRESENTATION SKILL Use an Effective Hook and a Call to Action

When you present an argument, you want to get your listeners' attention. This can help you persuade them to do something.

An **effective hook** is something that gets your audience's attention, such as an interesting image, interesting facts and figures, or a personal story. You can also ask questions for your audience to think about.

Did you know, we lose or throw away over 50 percent of the food we produce?

By the end, you want your audience to do something. This is a **call to action**. For example, perhaps you want your audience to do something differently in their lives after listening to you.

The answer is simple: Cook more fresh food and don't eat too much fast food.

- **C PLAN** Choose one of these arguments about responsible food choices or your own idea.

- We need to eat less meat and have a plant-based diet.
- Schools need to teach children how to cook food.
- We need to drink tap water and not drink water in plastic bottles.

Then prepare a short presentation using this structure:

- Use an effective hook in your introduction.
- Give three reasons for your argument.
- End the presentation with a call to action.

- **D PRACTICE AND PRESENT** Practice presenting your argument to a partner. Then present it to the class or to a group.
