My First Car

My first car was old and ugly, but I loved it anyway. It was a very bright shade of blue, but it also had green, yellow, and gray paint in different places. The body was in terrible condition. It had several big dents¹. The lock on the hood was broken, so I had to tie down the hood with a strong rope. Also, the back bumper was rusty, and the front window had a big crack in it. The inside of the car was also in bad condition. The door handle on the passenger side was broken, so you couldn't open the passenger door from the inside. The seats had at least ten large holes in them. Also, the gas gauge was stuck. It always showed "full," so I often ran out of gas. The speedometer was broken too, so I never knew how quickly I was driving. My old VW had many faults², but in my mind it was perfect.

PRACTICE 12**Using Synonyms**

LOOKING AT THE MODEL

The writing model is about qualities that good flight attendants have.

Work with a partner or in a small group. Read the model. Then answer the questions.

Writing Model

Good Flight Attendants

Good flight attendants have three important characteristics. First of all, they are very friendly. They enjoy greeting passengers and making them feel comfortable. Sometimes passengers are quite afraid of flying. Friendly flight attendants are good at talking to them and helping them feel calm. For example, they can explain strange noises made by the aircraft. Second, good flight attendants are self-confident. They can give clear instructions to passengers, and they must be rather firm so that passengers obey them. This characteristic is especially important in emergencies. Third, good flight attendants are fairly strong. They have to push heavy carts of food and drinks up and down the aisles. They also have to open and close the airplane's extremely heavy doors. In short, good flight attendants are friendly, self-confident, and strong.
